To Mr Vumase

The Department of Health has indicated the need for a detailed forensic investigation into the circumstances surrounding the disposal of donar funding within the department. The KZN Provincial Treasury Department has appointed Ubunye Consortium to conduct the said investigation and submit a report on the findings to Treasury.

Your assistance is required in

- placing all documentary and electronic information relevant to the investigation at the disposal of Ubunye Consortium investigation team
- facilitating access to related information held at the district clinics under your designated authority
- availing all staff members that they be required to be investigated in relation to the investigation.

Signed

Ms Motaung
