On the 13th of June 2009 the Thembokhwezi Branch held a workshop which gave an overview of TAC and education on TB. The attendance was impressive and the workshop a success. This is what participants had to say.

Branch Leaders:

I am glad to be here because I learn things that I didn't know, so I will be able to teach other people. I am looking forward to the next workshop ? it was a good workshop, so keep up the good work. - By Phumzeka Tapane

The workshop has revitalised our spirits, with the new information that we learned in the workshop, the history and the victories TAC has achieved, will definitely give us the strength to run for another 10 years. With the hope that the minor hick-ups we have encountered in the planning of this workshop. I am so looking forward to another workshop. A nation that doesn't know its history can not be regarded as a nation. So I am positive that the workshop had good outcomes in a sense that members gained relevant information and are now ready to go out there and do our duties in fighting for people's rights and educating others. - By Lizo Zosiwe
