Looking for a brighter smile or straighter teeth? [Cosmetic dentistry abroad](#) is growing more popular by the day, especially as more Americans venture south of the border to take care of dental implant surgeries, dental bridge care and cosmetic implant dentistry or cosmetic laser treatments. Traditional dental techniques as well as cosmetic dental procedures are becoming increasingly popular. Some of the most popular dental procedures include but are not limited to:

? Root canal

? [Dental implants](#)

? Dentures

? Bridges

? Crowns

? Orthodontics

? [Teeth whitening](#)

? Bonding

In the United States, dental implants can cost between \$1,200 and \$2,000. The cost of a crown will vary by the type of crown that is chosen, but may range between \$800 and \$1,000. Bonding can run between \$300 and \$600 a tooth. Orthodontic procedures may range anywhere from \$3,000 to \$5,000, sometimes more. Affordable cosmetic dentistry is available in Mexico, and in Latin American countries like Brazil, Columbia, Costa Rica, Panama and Argentina, just to name a few of the fun, exotic and affordable destinations for anything from teeth whitening to orthodontic specialists. Of course, dentistry abroad might also take you to destinations such as Turkey, Poland, Croatia, Thailand or India - the choice is yours - really! Today, medical dental tourism is growing, and individuals are free to choose the where and how - the only decision to really make is going to be narrowing down the great facilities available around the globe that offer accredited, expert and experienced affordable dental care.
